● Program Mission

The Master's Program in Teaching English to Speakers of Other Languages (TESOL) has as its mission helping teachers, both in-service and pre-service, to become reflective practitioners who can make pedagogically sound and informed decisions about their classroom practices based on a well-articulated understanding of current theories of language and second language learning and teaching. Recognizing the diversity and complexity of today's classrooms, this degree program aims to help teachers develop an extensive repertoire of instructional methods and strategies as well as professional knowledge and skills that enable them to take appropriate action to address the learning needs of their students.
