Course Overview

This course provides an overview of sociocultural approaches to second language (L2) learning and teaching by introducing foundational and emergent theories and concepts that have shaped and guided research and teaching practice in this area. It will build on your knowledge of second language acquisition (SLA) and encourage you to consider how sociocultural approaches can inform work in this area. Topics covered will include, but are not limited to, the quality of interaction desired for L2 learning and development, the role of the first language (L1) in L2 learning, learner agency and identity, and the roles of teachers and peers as socializing agents.

The course will examine the implications that sociocultural theories have for the teaching of English as a second/foreign language (TESL/TEFL). You will be encouraged to use the concepts and insights provided by this course to reflect on and analyze interactions that transpire in your own classrooms. Thus, the major goal of this seminar is to provide you with a set of reflective tools that you can use to promote student learning. More specifically, the course aims to help you develop a solid understanding of sociocultural concepts and principles and make practical applications of this knowledge in your own situations, and thereby to facilitate your learning and development as EFL/ESL teachers.

Course Objectives:

By the end of this course, you should be able to:

- Understand the relationship between theory and practice
- Define major sociocultural concepts
- Discuss the possible relationships among language, interaction, and learning
- Explain the role of learner agency in L2 learning and consider constraints and resources in different situations
- Discuss the role of teachers as socializing agents
- Use sociocultural tools to examine and discuss the teaching-learning processes that take place in your classrooms

Instructor Bio:

I am a Professor and Deputy Chair of the English Department at Kanda University of International Studies (KUIS), where I teach a variety of undergraduate courses in TESOL and applied linguistics. I am also cross-appointed to the MATESOL Program at KUIS. I received my PhD in language and literacy education (with a specialization in TESL) from the University of British Columbia, Canada, and my MA in TESOL from the Monterey Institute of International Studies, U.S.A. I have had the pleasure of meeting a number practicing teachers and trainers through lectures, seminars, and workshops since I joined KUIS in 2006. My research interests include academic English discourse socialization, language-content integration, L2 teacher education, dialogic learning, and task-based L2 learning. Since the inception of the MA TESOL Program at KUIS, I have taught a seminar on Sociocultural Approaches to Second Language (L2) Learning and Teaching and has supervised number of MA projects.
